REPORT OF CARPENTER HOME TRUSTEES

March 11, 1930 to Feb. 1, 1931

The trustees of the Carpenter Home submit the following report:

As this is a new venture we have had to formulate our own rules and regulations. Our first duty seemed to be to clean up the premises, inside and out and to make a few necessary repairs.

We have had the house thoroughly cleaned, several rooms papered, painted and whitewashed. The lawn and immediate surroundings have been put in order, the cellars, sheds. etc., were full of trash, such as bottles, papers, broken dishes, etc., and these have been disposed of.

We have had the Carpenter cemetery lot properly cared for.

We at once began to seek a caretaker and succeeded in persuading Mr. and Mrs. Edward L. Pratt of Keene, N. H., to take charge and they seem entirely satisfactory.

Following is the financial report:

Orders drawn and sent to the Swanzey Trust Fund Committee for payment.

1.	May 24, 1930	G. H. Aldrich & Sons, for insurance,	$51 04
2.	June 18, 1930	Town of Westmoreland, for taxes 1930,	28 00

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Swanzey:

I have the honor to submit, herewith, my sixth annual report.

BUILDINGS AND GROUNDS: In pursuance of the policy of improving the physical plant, the School Board, during the year, carried out the following projects, in addition to the usual general repairs.

WESTPORT SCHOOL—Underpinning and sills were repaired.

CUTLER SCHOOL—New wire fence set on all sides except the front and one new ceiling was put up.

FACTORY SCHOOL—Front steps were repaired and new, modern seats were installed in the grammar room. Plans are under way to enlarge the playground.

CENTER SCHOOL—A new well was dug; new seats were installed in the primary room and both rooms were equipped with new shades.

EAST SWANZEY—A new steel ceiling was put up in the grammar room and the well was cleaned out and protected from surface drainage.

NUMBER NINE—The shed and the roof were repaired.

In keeping with this policy on the part of the Board, I would suggest that we next concentrate our attention on the toilet facilities at the various schools. None of them meet the modern standards of sanitation. The arrangements at East Swanzey should be standardized first of all. Next in order should come the Cutler School.

TEACHERS AND PUPILS—Only one change is to be noted in the teaching staff. Miss Mabel Wheeler, who for three years, taught most efficiently the primary school at East Swanzey, resigned to accept a more lucrative position in Lexington, Massachusetts. To fill the vacancy, the Board appointed Miss Dorothea Whitney of Newbury, Vermont, a graduate of Plymouth Normal School.

It was impossible for us to arrange with the Keene Normal School for Art instruction and so Swanzey is co-operating with Hinsdale and Winchester in employing a regular Art teacher. Miss Ruth Martin of Manchester, New Hampshire, a graduate of Keene Normal School, has been engaged for this work.

I feel that the work done by the teachers and pupils of the Swanzey Schools is of a high order. One evidence of this is shown by the increase in the number of high school students for whom the District pays tuition. The high point for the year is seventy-three. This increase is due in part to a larger percentage entering high school and in part to the fact that more are staying through to graduation. This situation has forced the School Board to increase its budget by at least $1,000 for the next year and may require an emergency appropriation to balance this year's budget.

The Swanzey schools are improving all along the line every year. This is possible simply because of the harmony existing between the Board and the Superintendent, the co-operation of the teachers and the pupils, and the loyal, as well as liberal, support of the work of the schools by the Citizens of Swanzey. To all I acknowledge my deep debt of appreciation.

Respectfully submitted,
WESLEY H. DOUGLASS,
Superintendent of Schools.

Winchester, N. H.
February 12, 1931.

The most important duty of this generation is to be parents to the next generation and to equip this next generation for its responsibilities to carry on the program of civilization, and, if possible, improve this program. The two most important agents in discharging this great duty are the parents and teachers. Parents are not alone the parents of the next generation, but to a great degree they are also the teachers. Teachers are not alone the teachers of the next generation, but for the hours of the school the teachers are in place of the parents. The service of the parent and the teacher is inseparably joined. The life of the child should be continuous without shifts of personality from home to school. The home and the school are learning to adjust themselves to each other, so that while the child spends a part of the day in school and a part of the day in the home he meets no conflicts in establishing right habits, attitudes of mind, and ideals. It is of tremendous importance that the home and the school agree upon what are right habits, right knowledge, right attitudes of mind, and right ideals.
